

Our Value Proposition

One Team. Complete Governance. Zero Gaps.

We deliver:

- **AI governance across ICAM, physical security, IoT/edge systems, and agentic AI behavior**
- **ISO/IEC 42001 AIMS implementation and internal auditing**
- **GovCon compliance, workforce governance, and employment-law rigor**
- **Risk visibility into connected devices and autonomous decision points**
- **Audit-ready documentation and executive decision support**

This is governance a customer can defend.

Flagship Offering: A.W.A.R.E.™ AI Governance System

A.W.A.R.E.™ is our peer-reviewed (Springer LNNS World S4 2026) governance architecture for agentic and autonomous AI systems. It evaluates:

- | | |
|------------|------------------|
| • Value | • Accountability |
| • Adoption | • Readiness |
| • Risk | • Ethics |

Deliverables include a **governance gap map, prioritized risk register, remediation roadmap, and audit-ready documentation.**
